9780972024211, Don Trow, 2005

A book of humorous vorse with a serious 25-page introductory essay, "Poetry's Edges," which explores the boundaries separating -- or rather, not quite separating -- poetry from other verse genres including light verse, folk verse, nonsense verse, and others, with examples. The first section of verses, "Amorous Knots," consists of verses likening knots to amorous relationships. The second has verses about family and ancestors, starting with Charlemagne. The final section contains a variety of humorous/serious verses on foresight and old age.
